

to develop plans for achieving national environmental standards established by the EPA which are tailored to meet local conditions and priorities.

Moreover, the EPA should enter into memoranda of understanding with individual states outlining performance, firm joint goals, and measures to ensure compliance with federal environmental laws while recognizing states that having achieved primacy in environmental programs have the right to direct compliance actions.

Further, Mr. Speaker, I call upon Congress to direct the EPA to develop policies and practices which recognize successful environmental policy and implementation are best achieved through balanced, open, inclusive approaches where the public and private stakeholders work together to formulate locally-based solutions to environmental issues. In addition, threats of enforcement action to coerce compliance with specific technology or processes often do not result in environmental protection but rather encourage delay and litigation, and are disincentives to technological innovation, increasing animosity between government, industry and the public, and raising the cost of environment protection.

Finally, effective management of environmental compliance is dependent upon the EPA shifting its focus from threats of enforcement action to one of compliance and the use of all available technologies, tools, and actions of the individual states.

AMERICAN EMBASSY SECURITY ACT OF 1999

SPEECH OF

HON. ROBIN HAYES

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Monday, July 19, 1999

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 2415) to enhance security of United States missions and personnel overseas, to authorize appropriations for the Department of State for fiscal year 2000, and for other purposes.

Mr. HAYES. Mr. Chairman, there have long been concerns regarding the funding of the United Nations Population Fund and its family planning practices around the world. From 1986 to 1992, UNFPA received no United States funds because of its presence in China, where coercive population practices have been reported. In 1993, this administration let these family planning practices off the hook and funding was restored. Until the UNFPA provides concrete assurances that it was not engaged in, or does not provide funding for, abortions or coercive family planning programs. I can not support this additional funding to the UNFPA.

Intense pressure to meet family planning targets set by the Chinese government has resulted in documented instances of officials using coercion, including forced abortion and sterilization, to meet government population goals.

The family practices employed by the Chinese government are alarming. Poll after poll reveals that a significant portion of Americans believe abortion is morally wrong, and even more Americans would agree that federal tax

dollars should not be used to fund abortions. This loophole in funding must be closed for the safety of unsuspecting mothers who are given little choice.

I am adamantly opposed to any commitment of federal funds for the purpose of abortion services in the United States or abroad. I also oppose the deceptive actions of the United Nations family planning agencies that use their UN funding to pay the electric bill while diverting "private funds" to pay for their forceful family planning practices. How can I go back to my district and tell my constituents I don't have the resources to help protect our neighborhoods or for after school programs for our students, because we have to sent our federal dollars to the United Nations to perform abortions?

I cannot support funding for the United Nations Population Fund until there are assurances and documented evidence that United States federal funds do not fund abortions half way around the world. I ask my colleagues to support the Smith-Barcia Amendment and to vote no on the Campbell-Gilman amendment.

HONORING DAVID ANDERSON

HON. LOIS CAPPS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 20, 1999

Mrs. CAPPS. Mr. Speaker, today I rise to bring to the attention of my colleagues a friend and a leader who was recently honored by the Land Trust of Santa Barbara County for years of outstanding commitment to our environment—David Anderson. David has dedicated himself to the preservation of land in Santa Barbara County and the Central Coast.

David Anderson is the co-founder and past President of the Land Trust. He has been intimately involved in almost every conservation effort the Trust has worked on in the last fifteen years. David has been a constant source of support to community groups, property owners and government agencies in Santa Barbara county where the preservation of land was at stake. Because of his efforts and leadership, open space has been preserved on the Gaviota Coast, coastal bluffs have been preserved near Point Sal, the Great Oak Preserve in the Santa Ynez Valley was established, and grasslands near Lompoc have been conserved. These are but a few examples of the land that David and the Trust have secured for today and in perpetuity.

David has also greatly contributed to other community organizations. He has served as Past President and is currently the Co-Executive Director of the Santa Barbara Museum of Natural History, he has been a Board member of the Nature Conservancy, and President of Get Oil Out. In addition, he has been the Past Chairman of the County Air Pollution Hearing Board and a City of Santa Barbara Planning Commissioner.

Mr. Speaker, I was honored to join the Land Trust for Santa Barbara County this past weekend to pay tribute to David Anderson. He is a man who has dedicated himself to creating and preserving our most precious resources—our land and our environment. I commend him for years of service to the County of Santa Barbara and to our nation.

PERSONAL EXPLANATION

HON. VITO FOSSELLA

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 20, 1999

Mr. FOSSELLA. Mr. Speaker, I am not recorded on rollcall numbers 308 for the Lewis and Clark Expedition Bicentennial Commemorative Coin Act; 309 for the Sense of Congress Regarding the U.S. in the Cold war and the Fall of the Berlin Wall; and 310 for the Iran Nuclear Proliferation Prevention Act. I was unavoidably detained and therefore, could not vote for this legislation. Had I been present, I would have voted "aye" for all of the above resolutions.

HONORING FIRST AMERICAN TITLE COMPANY

HON. GEORGE RADANOVICH

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 20, 1999

Mr. RADANOVICH. Mr. Speaker, I rise today to recognize First American Title Company for devoting themselves to the improvement and development of the City of Clovis, California. Through many activities and events, First American Title Company has devoted countless hours to the development and enhancement of the County of Fresno, specifically the City of Clovis.

One of America's oldest and largest real estate related financial services companies celebrated its centennial in 1989. The First American Financial Corporation traces its roots back to 1889 when what was then rural Orange County, California, split off from the County of Los Angeles. At that time, title matters in the brand-new county were handled by two firms—the Orange County Abstract Company and the Santa Ana Abstract Company. In 1894, C.E. Parker, a local businessman, succeeded in merging the two competitors into a single entity, the Orange County Title Company, the immediate predecessor of today's First American Title Insurance Company.

Later, the company took a new name, First American, and expanded the geographic scope of its operations. In 1968, the firm was restructured into a general holding company, The First American Financial Corporation, conducting its title operations through First American Title Insurance Company and its subsidiaries. Existing title and abstract companies were purchased, new offices were established, and agency contacts were negotiated. Through a well-planned and managed expansion program, First American built an organization that serves every region of the country.

The Company operates through a network of more than 300 offices and 4,000 agents in each of the 50 states. It provides title services abroad in Australia, the Bahamas, Canada, Guam, Mexico, Puerto Rico, the U.S. Virgin Islands, and the United Kingdom.

First American's business practices are a blend of the newest techniques and technologies with the old, tried and true ways of providing personal service. The critical ingredient in the company's formula for success is people.
